Custom Facebook Business Page – starting at \$150

Creation of a customized Facebook page for your business. [View my Facebook portfolio!](#)

The Complete Start – starting at \$700

Perfect for new bloggers. This package includes a 30-minute personal consultation to determine your blogging needs and wants, followed by a webhost recommendation, blog software installation, design and customization of selected themes and templates, plugin recommendations and installation and css enhancements.

Blog Conversion - starting at \$720

For those who started blogging on a free Blogger or Wordpress.com blog and now want your own domain. This package includes a 30-minute personal consultation to determine your blogging needs and wants, followed by a webhost recommendation, blog software installation, export of all post and comments data, import of all data to new platform, design and customization of selected themes and templates, plugin recommendations and installation and CSS enhancements.

Template Conversion - starting at \$400

For those who have HTML or CSS templates and want to have them converted to WordPress. Up to 12 pages will be converted and WordPress enabled. Additional features, wordpress installation, or training will be done at my hourly rate.

All Year Long – \$1488

For those who don't want to worry about the technical part of their blog. Hire me as your Technical Consultant for a year long commitment and I will take care of all technical issues so you can do what you do best – blogging. This package entitles you to 2.5 hours a month of guaranteed site optimization, which can be used for upgrades, fixes and troubleshooting or for site customizations and consulting. A monthly backup of all your files and of your database is included. As a regular client, the needs of your site will come first. This package is also available month to month for \$135/month.

General support – per hour support. Please contact me for a quote.

For general troubleshooting, quick plugin installation, or easy upgrades for your blog. Types of support offered include; theme customizations, plugin tweaks, rearranging of sidebar items, installation of adsense advertising, rss fixes and rss integration with feedburner, css enhancements, template conversions, search engine optimization, and training in the usage of your blogging platform. If there is anything else that you need, just ask and I'm sure I can help you out.
